

Dear Coaches, Players and Fans:

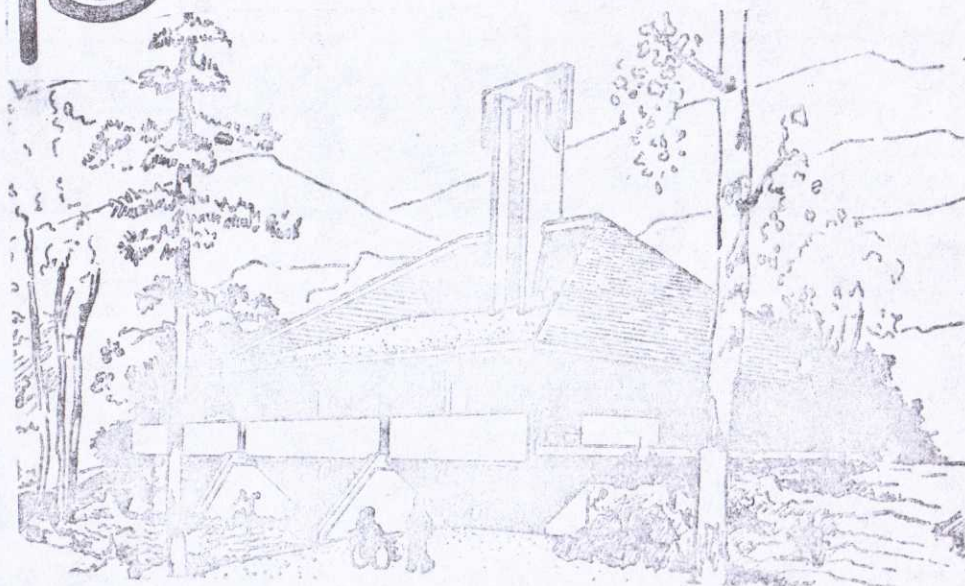

The United Cerebral Palsy Association of Utah sponsors three programs; Camp Kostopulos, a summer camp program, a community based recreation program, both for mentally retarded and cerebral palsied individuals, and the Special Olympics, an athletic program for mentally retarded children and adults.

The Utah-Arizona All-Star Games enables our handicapped friends to participate in these programs. Each coach and player involved with this charity game not only represents Utah, but every handicapped person in the state. Due to the growth and popularity of the game, we have touched the lives of many handicapped persons by giving them the opportunity to experience a more abundant life. On behalf of our special friends, I would like to thank all of you for your enthusiasm and participation.

Gary Toller

United Cerebral Palsy
Association of Utah
